

SPECIMEN 04

// SOFTWARE

DIGITAL CAPABILITIES FOR MISSION-FOCUSED OPERATIONS

MISSION PLANNING SOFTWARE

Supporting precise mission preparation through digital planning tools and operational data.

SIMULATION & TRAINING SOFTWARE

Digital simulation environments for testing, preparation and training of unmanned operations.

MISSION COORDINATION SOFTWARE

Software for coordinating forces, UAVs and operational resources through a shared situational picture.

INTEGRATED COMMAND & CONTROL (ICC)

Centralized software environment connecting sensors, systems and operational units.
